FOREWORD

A Message from the IMSPQ Competition Director

Dear professors, distinguished guests, members of the faculty, on behalf of the organizing committee it is with great pleasure for me to welcome you once again to the 17th Inter-medical School Physiology Quiz, which we have the pleasure of holding here at the Faculty of Medicine Universitas Indonesia in Jakarta.

As we all know, the Inter-medical School Physiology Quiz (IMSPQ) was instigated by Professor Dr. Cheng Hwee Ming in 2003 at the University of Malaya. The IMSPQ started with only a small gathering of seven Malaysian medical schools. The following years saw a rapid growth of participating countries as Professor Cheng initiated the quiz in Asian and European countries, as well as in the USA. And now, it is our turn to host the 17th Inter-medical School Physiology Quiz.

This international event hosts medical students from national as well as international university, brought together through their shared love of medical physiology. The purpose of the competition is to give medical students the opportunity to broaden their knowledge and experience in an international competition, while having fun and forging new as well as fostering old connections for future networking. As we know competitions allow students to work together reaching tangible goals. The outcome is far less important than the individual journey of self-improvement and growth. We recognize and celebrate the path that our medical students are pursuing. Their dedication is proof that the future of medicine is in good hands.

Again, on behalf of the organizers let me wish you all a rewarding stay in Jakarta and bring home warm memories of our time together.

Sincerely,

Head of IMSPQ 2019

dr. Imelda Rosalyn Sianipar M.Biomed., PhD.

ABOUT IMSPQ

EVENT

Inter-Medical School Physiology Quiz

SCOPE

International

DATE

August
21st-22nd
2019
