

Message from the Office of Student Affairs:

Updated: June 3, 2020, 11.27

Dear CICM Community:

### **Work from home**

We will still be continuing our Work from Home model for the indefinite future. One staff member will be available in office from 09.00-12.00 beginning June 8, 2020. For all other inquiries our Social Media outlets and phone are still available.

### **iPad Distribution**

Students have been informed of their pick-up time for June 11, 2020 iPad distribution Drive-Thru. Students may remain in their vehicle and a Student Office staff member will allow you sign to pick up your iPad. Please have a photo identification card available. A booth will be set up in front of the Co-Operative Learning Center at Thammasat University, Rangsit.

### **In-Class Sessions**

Term one of the 2020 Academic Year is scheduled to start in August. According to the most recent announcement from Thammasat University, on-campus classes will be allowed to be resumed with precautionary regulations put in place. Online learning will still be continued to some capacity.

### **Covid Financial Support**

In the upcoming months a scholarship fund has been designated for students who have met financial hardship due to the ongoing pandemic. Details and application criteria will be listed on both our website and Facebook page soon, please stay up to date for further details.

### **Online Open House**

June 18, 2020 and Online Open House will be held for high school students and their parents/educators about Life at CICM. We encourage all to attend this online event from the safety of their home. Details are available on our Facebook page.

### **Orientation and New Student Engagements**

We anticipate that orientation meetings will primarily be held on an online basis with limited (if any) face to face interactions on campus.

We encourage you to monitor developments through the Ministry of Health and WHO websites. We will need your help. A few easy things we can all do include:

- Wash your hands for 20 seconds
- Use hand sanitizer
- Avoid shaking hands
- Disinfect frequently touched objects using a regular household cleaning spray or wipe
- Stay home
- Avoid touching your eyes, nose and mouth.

- We encourage social distancing when outside of the home at all times, this includes leaving 2 meters of space between individuals.

CICM will continue to work with national and local officials to monitor potential risks. If conditions change, we will update our campus community. Please check our Facebook for updated information. [www.facebook.com/CICMTUACTH](http://www.facebook.com/CICMTUACTH)
