

Message from the Office of Student Affairs:

Updated: April 6, 2021

Dear CICM Community:

High-risk areas

An emerging cluster has been identified in Bangkok and surrounding provinces. At this time the following have been noted as high risk areas:

- Thong Lo area pubs/markets (Please check our Facebook page for details)
- Pathum Thani – Gum Gung Pub (Please check our Facebook page for details)

If you have questions or concerns regarding your travel, please contact the Student Affairs office. Please be aware of symptoms including fever, cough, sore throat, lack of smell/taste, nasal congestion or runny nose. If you suspect you have traveled on a flight, bus, or were in close proximity to a positive case, please contact the Ministry of Public Health. Avoid going to markets and other crowded areas at this time. Those with travel to aforementioned places please contact us. On **April 6**, a declaration form was sent to students asking about any high-risk travel activity. Please complete this immediately.

Meet the Advisor #2

The Office of Student Affairs has transitioned this meeting to online. Cultural Day is still pending the current situation at hand.

Covid-19 Testing

TU Hospital is offering testing for students meeting the criteria based upon travel and symptomatology. A link can be found on our Facebook page.

Scholarship recipients announced for Covid-19 second wave.

We encourage all those in the CICM community to be up front and honest regarding whereabouts or travel to high risk areas.

- Disciplinary action may be taken those who the violate the CICM code of conduct

We encourage you to monitor developments through the Ministry of Health and WHO websites. We will need your help. A few easy things we can all do include:

- Wash your hands for 20 seconds
- Use hand sanitizer
- Disinfect frequently touched objects using a regular household cleaning spray or wipe
- Local transmission is still occurring, we encourage students to avoid crowded locations, bars, and pubs at this time.

CICM will continue to work with national and local officials to monitor potential risks. If conditions change, we will update our campus community. Please check our Facebook for updated information. www.facebook.com/CICMTUACTH
