

Message from the Office of Student Affairs:

Updated: April 13, 2021

Dear CICM Community:

### **Community Case**

- A member of our community has tested positive for Covid-19, we wish them a speedy recovery. At this time, the CICM will provide details once formerly announced by the Ministry of Public Health, Pathum Thani. We ask that we display a level of courtesy to those involved.

We understand the holiday season is upon us, but we encourage our community to consider staying home to help reduce the spread of this new outbreak. If you have been in close contact with a positive case, please reach out to the Office of Student Affairs. A new declaration will be sent to students over the Songkran holiday.

### **Covid-19 Testing**

TU Hospital is offering testing for students meeting the criteria based upon travel and symptomatology. A link can be found on our Facebook page.

**The Office of Student Affairs will move to a Work from Home model, April 16, 2021.**

**We encourage all those in the CICM community to be up front and honest regarding whereabouts or travel to high risk areas.**

- Disciplinary action may be taken those who the violate the CICM code of conduct

We encourage you to monitor developments through the Ministry of Health and WHO websites. We will need your help. A few easy things we can all do include:

- Wash your hands for 20 seconds
- Use hand sanitizer
- Disinfect frequently touched objects using a regular household cleaning spray or wipe
- Local transmission is still occurring, we encourage students to avoid crowded locations, bars, and pubs at this time.

CICM will continue to work with national and local officials to monitor potential risks. If conditions change, we will update our campus community. Please check our Facebook for updated information. [www.facebook.com/CICMTUACTH](https://www.facebook.com/CICMTUACTH)
